

Ethio-feed plc..... Control of Prosopis by Management

Current Livestock Feed status

- **Availability and price of conventional feed ingredients**
- **Need for alternative feed resources**
- **Moving from conventional feed ingredients for livestock fed products**
 - (ie concentrate to Total mixed ration(TMR)
- **Need for quality livestock feed products (ie rich in CP)**

Ethio-Feed plc..... Control of Prosopis by Management

Why Prosopis Pods as alternative feed sources

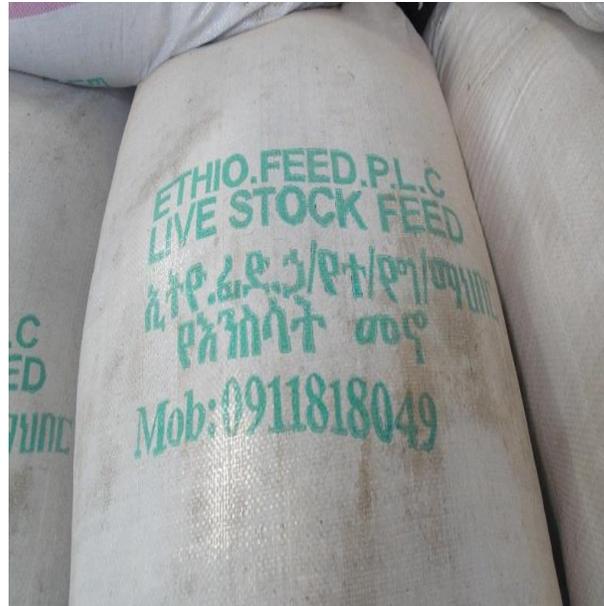

- Availability
- Price
- Nutritional value (ie CP)

Ethio-Feed plc..... Control of Prosopis by Management

How Ethio-Feed plc can partner with this initiative
use of prosopis Pods for production of:

- 1) High quality dairy, fattening and poultry feed products**

Ethio-Feed plc..... Control of Prosopis by Management

Ways of Partnership with Ethio-feed plc

- 1) Creating linkage with youth groups, association or cooperatives that can supply crushed prosopis pods
- 2) “**franchisee business partnership**” for production of different livestock feed products using prosopis pods as one major ingredient for the production of :
 - i) Total mixed ration (TMR)
 - ii) Multi-nutrient blocks (MNB)
 - iii) Mineral blocks
 - iv) Drought emergency livestock supplementary feed
- 3) Conduct practical research on different uses of prosopis pods and leaves as source of livestock feed

Ethio-Feed plc..... Control of Prosopis by Management

2) Multi-nutrient blocks for dairy, cattle, camels and shoats

Ethio-Feed plc..... Control of Prosopis by Management

3) High quality **mineral blocks** for dairy animals
